Advisory Business

Firm Description

Patrick M. Sweeney & Associates, Inc. was founded in 2001. Our principal office and place of business is located at 18-1 East Dundee Road, Suite 150, Barrington, Illinois 60010. Regular business hours are 8:30am to 5:00pm Monday through Friday CST.

Patrick M. Sweeney & Associates, Inc. provides personalized confidential investment management and financial planning to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

Patrick M. Sweeney & Associates, Inc. does not act as a custodian of client assets. The client always maintains asset control. Patrick M. Sweeney & Associates, Inc. places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is available to the client, often in the form of a net worth statement. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which investment management and financial planning may be beneficial to the client.

Principal Owner

Patrick M. Sweeney is the firm's principal owner.

Types of Advisory Services

Patrick M. Sweeney & Associates, Inc. provides investment supervisory services, also known as asset management services on a discretionary and non-discretionary basis. In addition, the firm manages investment advisory accounts not involving investment supervisory services and furnishes investment advice through consultations or other devices which clients may use to evaluate securities.

On more than an occasional basis, Patrick M. Sweeney & Associates, Inc. furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of December 31, 2018, Patrick M. Sweeney & Associates, Inc. managed \$101,911,814 on a discretionary basis and \$6,394,168 on a non-discretionary basis.

Tailored Relationships

The scope of each client's relationship is determined by mutually agreed upon goals, objectives, and risk tolerance. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Advisory Service Agreement

Most clients choose to have Patrick M. Sweeney & Associates, Inc. manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client prior to the start of the relationship. An Advisory Service Agreement includes: cash flow management; insurance review; investment management (including performance reporting); education planning; retirement planning; estate planning; and tax preparation, as well as the implementation of recommendations within each area.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedule:

8/10ths of 1% on account values less than \$500,000;

6/10ths of 1% on accounts values more than \$500,000.

The minimum annual fee is \$800 and may be negotiable. Current client relationships may exist where the fees are higher or lower than the fee schedule above. We retain the discretion to negotiate alternative fees on a client-by-client basis.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an

agreement by two weeks' written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed.

Tax preparation work is performed as an integral part of the Advisory Service Agreement. These services may be performed as part of the Advisory Service Agreement or on an hourly basis.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The minimum fee is \$800 and may be negotiated. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to six months. Follow-on implementation work is billed separately at the rate of \$200 per hour.

Retainer Agreement

In some circumstances, a *Retainer Agreement* is executed in lieu of an *Advisory Service Agreement* when it is more appropriate to work on a fixed-fee basis. The annual fee for a *Retainer Agreement* is \$800 and is may be negotiable.

Tax Preparation Agreement

Tax preparation work may be included in the *Advisory Service Agreement* or *Retainer Agreement* scope of work.

Tax preparation work performed separately from an *Advisory Service Agreement* or a *Retainer Agreement* is billed at a flat rate agreed upon by the client. Eligible federal and applicable state returns are filed electronically without an additional fee.

Hourly Planning Engagements

Patrick M. Sweeney & Associates, Inc. provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is \$200.

Asset Management

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. Patrick M. Sweeney & Associates, Inc. does not receive any compensation, in any form, from brokerage houses or fund companies.

Investments may also include: exchange-traded funds, corporate debt securities, certificates of deposit, municipal securities, investment company securities as mutual funds shares, and U. S. government securities. Initial public offerings (IPOs) are not available through Patrick M. Sweeney & Associates, Inc.

Termination of Agreement

A Client may terminate any of the aforementioned agreements without penalty at any time by notifying Patrick M. Sweeney & Associates, Inc. in writing with ten days' written notice, and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. We do not currently accept advance payments; however, if the client made an advance payment, Patrick M. Sweeney & Associates, Inc. will refund any unearned portion of the advance payment.

Patrick M. Sweeney & Associates, Inc. may terminate any of the aforementioned agreements at any time by notifying the client in writing with ten days' notice. If the client made an advance payment, Patrick M. Sweeney & Associates, Inc. will refund any unearned portion of the advance payment.

Fees and Compensation

Description

Patrick M. Sweeney & Associates, Inc. bases its fees on a percentage of assets under management, hourly charges, and fixed fees.

Some *Retainer Agreements* may be priced based on the complexity of work, especially when asset management is not the most significant part of the relationship.

Financial plans are priced according to the degree of complexity associated with the client's situation.

Fees are negotiable and further outlined in the previous sections defining types of agreements.

Fee Billing

Investment management fees are billed quarterly, in arrears, based upon the value of the account as of the last day of the current quarter. In arrears means that we invoice you after the three-month billing period has ended. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Fees for financial plans are billed upon delivery of the financial plan.

Patrick M. Sweeney & Associates, Inc. is strictly a fee-only investment management and financial planning firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Other Fees

Patrick M. Sweeney & Associates, Inc., in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

New Advisory Service Agreement fees are calculated on a formula basis and adjusted for complexity of individual situations. *The formula is based on gross income, gross assets and other financial considerations.*

Past Due Accounts and Termination of Agreement

Patrick M. Sweeney & Associates, Inc. reserves the right to stop work on any account that is more than 180 days overdue. In addition, Patrick M. Sweeney & Associates, Inc. reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in Patrick M. Sweeney & Associates, Inc.'s judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

Performance-Based Fees and Side-By-Side Management

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Patrick M. Sweeney & Associates, Inc. does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

Patrick M. Sweeney & Associates, Inc. generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates, or charitable organizations.

Client relationships vary in scope and length of service.

Account Minimums

The minimum new account size is \$500,000 of assets under management.

Patrick M. Sweeney & Associates, Inc. has the discretion to waive the account minimum. Accounts of less than \$500,000 may be set up when the client and the advisor anticipate the client will add additional funds to the accounts bringing the total to \$500,000 within a reasonable time. Other exceptions will apply to employees of Patrick M. Sweeney & Associates, Inc. and their relatives, existing clients as of December 31, 2010, or relatives of existing clients.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods include fundamental analysis and may also include charting, technical analysis, and cyclical analysis.

The main sources of information include research materials prepared by others, inspections of corporate activities, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases, financial newspapers and magazines, and corporate rating services.

Other sources of information that Patrick M. Sweeney & Associates, Inc. may use include research materials provided by Charles Schwab & Company and information found on the Internet.

Investment Strategies

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time.

Strategies may include options, long-term purchases, short-term purchases, trading, short sales, and margin transactions.

Options are contracts to purchase a security at a given price, risking that an option may expire out of the money resulting in minimal or no value. An uncovered option is a type of options contract that is not backed by an offsetting position that would help mitigate risk. The risk for a “naked” or uncovered put is not unlimited, whereas the potential loss for an uncovered call option is limitless. Spread option positions entail buying and selling multiple options on the same underlying security, but with different strike prices or expiration dates, which helps limit the risk of other option trading strategies. Option writing also involves risks including but not limited to economic risk, market risk, sector risk, idiosyncratic risk, political/regulatory risk, inflation (purchasing power) risk and interest rate risk.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, exchange-traded fund or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security’s particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment’s originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.

- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligation in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
- **Frequency Risk:** The frequent trading of securities can affect performance, particularly through increased brokerage and other transaction costs and taxes
